

Information Technology today is tactically addressing:

- Application upgrades and migration - inc. Microsoft, Oracle, ERP
- Server consolidation and Virtualisation
- Re-engineering back up infrastructure & deployment of DR
- Information lifecycle management including compliant archival
- Information security projects

To help companies meet the storage needs for these tactical projects, whilst ensuring the storage investment can grow into a strategic infrastructure, EMC has launched the following offer on the Clariion CX300 entry level SAN system.
