

Information Technology today is tactically addressing:

- Application upgrades and migration - inc. Microsoft, Oracle, ERP
- Server consolidation and Virtualisation
- Re-engineering back up infrastructure & deployment of DR
- Information Lifecycle Management including compliant archive
- Information security projects

To help companies meet the storage needs for these tactical projects, whilst ensuring the storage investment can grow into a strategic infrastructure, EMC has launched the following offers on entry level iSCSI, SAN and NAS storage systems.

EMC CLARiiON

iSCSI SOLUTION

Simplified iSCSI storage – get the most value and efficiency from your data storage environment:

- Simplify storage consolidation management
- Minimise downtime – keep critical apps. available
- Add capacity without buying more servers

Solution includes:

- EMC CLARiiON CX300i IP storage system
- 500GB capacity with hot spare scalable to 19TB
- EMC Navisphere Manager 2 host license
- Three years 4/24/7 hardware and software support
- Installation and connection to two hosts

iSCSI SOLUTION PRICE £9,949

EMC CLARiiON

SAN SOLUTION

Simplified, scalable SAN – optimised for workgroup environments:

- More effectively utilise storage capacity
- Meet demanding requirements: e-mail & database
- Built-in high availability

Solution includes:

- EMC CLARiiON CX300 SAN storage system
- 500GB capacity with hot spare scalable to 19TB
- McDATA 16 Port FlexPort Switch & 2 HBA's
- EMC Navisphere Manager 2 host license
- Three years 4/24/7 hardware and software support
- Installation and connection to two hosts

SAN SOLUTION PRICE £11,449

EMC CELERRA

NAS SOLUTION

Simplified clustered NAS storage – replaces file servers and virtualises data storage:

- Improved utilisation with virtual provisioning
- iSCSI connectivity for email and database support
- Local replication and worm functionality included

Solution includes:

- EMC Celerra NS352 NAS storage system
- 500GB capacity with hot spare scalable to 10TB
- Local replication with SnapSure for business copies
- Virtual provisioning & automatic capacity expansion
- WORM drive functionality for permanent records
- Three years 4/24/7 hardware and software support
- Installation and connection to two hosts

NAS SOLUTION PRICE £17,499
